

# Creative Minds Meet Artificial Intelligence

**PANTA RHAI** is the world's first AI-based lifestyle magazine. It proves how creative, high-quality, informative and fast people can create publications for themselves and customers in connection with AI.

With a mixture of high-quality content, beautiful images and new approaches, **PANTA RHAI** will transport readers into a world of lifestyle, IT and culture.

The magazine will be published monthly in German (also in English soon) and will be available as a PDF download on the website [www.panta-rh.ai](http://www.panta-rh.ai) - starting April 11th, 2023.

PANTA RHAI is a brand of nudge GmbH

Contact person:  
Jörg Salamon & Arian Okhovat

PANTA RHA I's goal as the first AI-based lifestyle magazine is to demonstrate the creative possibilities of AI in the publishing industry and beyond. We want to prove that AI-based technologies help to create high-quality and appealing content in the shortest possible time.

With PANTA RHA I, we also want to show that AI will not only be used in technical and scientific areas, but also offers added value in creative and cultural areas. With PANTA RHA I we want to encourage people to use the possibilities of AI in their own work and in their lives in general.

Of course, we are also the point of contact for customers who want to approach the topic of AI with the aim of realizing ideas within the shortest possible time. We see ourselves as doers and want to inspire our customers to simply try something.

**That's exactly how we did it with PANTA RHA I.**
